GESTAGYN® PRECONCEPTION

MAIN ACTIVE INGREDIENTS:

DHA Microalgae, Folic Acid, Iron (Ferginate®), Vitamin A (Betacarotene), Vitamin D3, and Zinc.

MAIN BENEFITS:

- Iron contributes to normal formation of red blood cells and haemoglobin.
- Ferginate® is a ferric saccharate microencapsulated in a matrix that protects it from the acid pH of the stomach. Its release is progressive and its absorption is optimal in the duodenum, avoiding gastrointestinal side effects.
- Vitamin A has a role in the process of cell specialisation.
- Supplemental folic acid intake increases maternal folate status. Low maternal folate status is a risk factor in the development of neural tube defects in the developing foetus. The beneficial effect is obtained with a supplemental folic acid daily intake of 400 µg for at least one month before and up to three months after conception.^{1,2}
- Zinc contributes to normal fertility and reproduction.
- Vitamin B6 contributes to the regulation of hormonal activity.

FORMAT:

30 capsules.

MARKET POSITIONING:

Maternity and fertility.

POSOLGY:

1 capsule a day.

EU CLASSIFICATION:

Food supplement.

1. The beneficial effect is obtained with a supplemental folic acid daily intake of 400 µg for at least one month before and up to three months after conception.

2. The abnormal development of the fetus is due to multiple risk factors. Changing any of these factors may or may not have a beneficial effect.

INGREDIENTS:

NUTRIENT	MG/CAPSULE	%NRV
DHA (docosahexaenoic acid)	100 mg	
Vitamin B9 (folate)	400 µg	200%
Vitamin A (retinol equivalent)	700 µg	88%
Vitamin B6	1.4 mg	100%
Vitamin B12	2.5 µg	100%
Vitamin D	10 µg	200%
Vitamin E (alpha-tocopherol equivalent)	12 mg	100%
Iron (Ferginate®)	18 mg	129%
Iodine	150 µg	100%

OBEGRASS FORTE

MAIN ACTIVE INGREDIENTS:

Chromium Picolinate, Garcinia Cambogia, Green tea and Caffeine, Asparagus Officinalis, Inuline, Lemon Bioflavonoids (Vitamin P).

MAIN BENEFITS:

• Chromium Picolinate:

Reduces the fats formation and their accumulation.

• Garcinia Cambogia:

With HCA, it inhibits the formation of fats and helps to dissolve them.

• Green Tea and Caffeine:

They stimulate the destruction and elimination of accumulated fat.

• Asparagus Officinalis:

Diuretic and detoxifying.

• Inuline:

In addition to having the classic qualities of soluble fibres, it exerts a limiting action on the fats absorption at the intestinal level.

• Lemon Bioflavanoids (Vitamin P):

Great detoxifying action, improving the appearance of orange peel.

CEANNUM

MAIN ACTIVE INGREDIENTS:

VERISOL® Hydrolyzed pure collagen, Hydrolyzed elastin of natural origin, Vitamin C.

MAIN BENEFITS:

TYPE I HYDROLYZED COLLAGEN: Bioactive peptides of low molecular weight hydrolysed collagen for better absorption.

- It helps to maintain the normal structure of the skin and provides firmness.
- Improves the extracellular dermal matrix turn-over.
- It helps to keep hydration for a healthy skin.

ELASTIN: Marine protein of low molecular weight (PROLASTIN®) that promotes its absorption and provides resilience to the skin.

- Protection against elastin fibres degeneration.
- Promotes the synthesis of new elastin fibres.
- Regenerates elastin fibres.

VITAMIN C: Essential water-soluble vitamin necessary for tissue growth and repair, 12.5 mg (15.6% NRV*).

- Protection against oxidative damage (antioxidant).
- Essential for collagen synthesis.

FORMAT:

Oral solution in single unidose containers. 10 Vials, 1 vial (sample).

MARKET POSITIONING:

Nutricosmetics, anti-age, skin.

POSODOLOGY:

Shock Therapy: 1 drinkable vial during 20 days.

Maintenance: 1 box a month (10 drinkable vials a month).

EU CLASSIFICATION:

Food supplement

INGREDIENTS:

For 1 vial:

VERISOL® Hydrolyzed pure collagen 10.3 g.
Hydrolyzed elastin of natural origin 599 mg.
Vitamin C 23 mg (29% NRV).
